Mobile App Overview

CHO Premium Mobile App is a partnership between ClubHouse Online and Fuel Travel to provide the club an accessible way to customize the layout and content inside the App.

The features offered are:

- Fully branded Mobile App with options for formats and layouts

- Full integration with Jonas system

- Push Notifications

- Digital Member Cards

- Biometrics and Facial recognition

- Creating sub-menus and groupings

- Content-only pages created and maintained by the club

- External links open within the application

- Geofence, Geolocation-based Push Notifications and Geofence-crossing Report

The Mobile App will be published in both Apple App Store and Google Play Store.

Implementation Timeline

Initial Call Submission of the survey	App creation	Design call Initial build review Revisions/changes	Training session	Testing Content built by the club	Publishing the app in Apple & Google stores Going Live
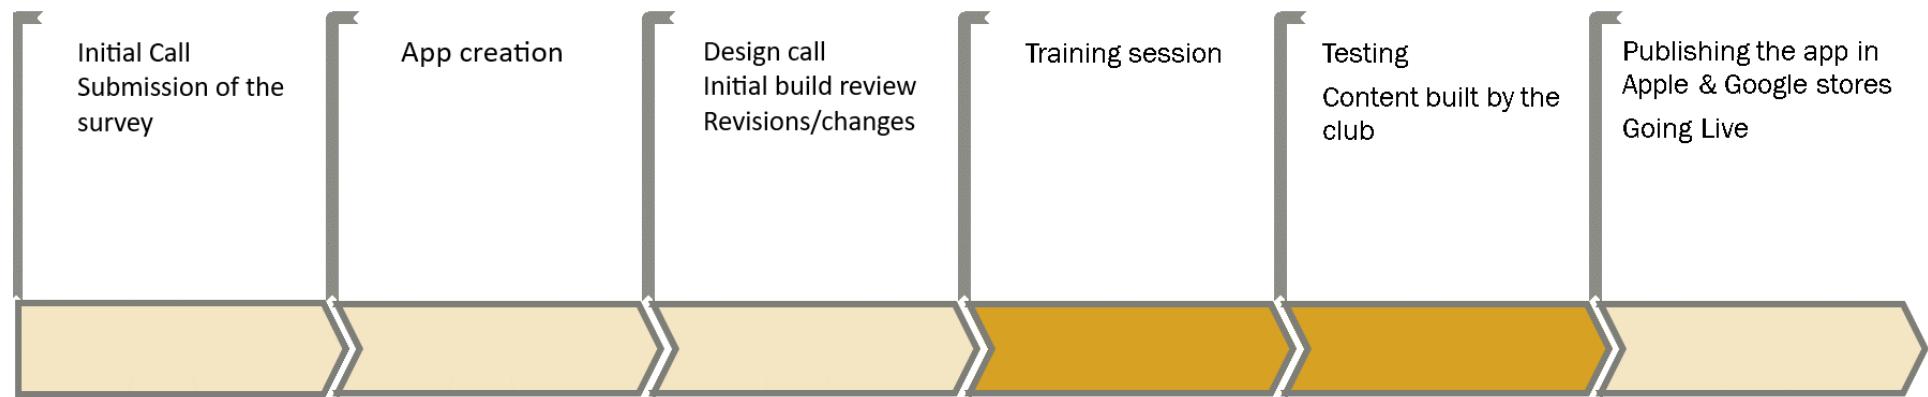

Important Note: this is a tentative timeline and is dependent on the timeliness to complete the requirements for each stage.
